Can I expect a response this afternoon? It would be much appreciated.

Noelle:

I am hoping to get a response from the governor to concerns that the memorandum of understanding between the governor and Dominion Power might not be constitutional, and that it appears to be a slush fund.

Can he point to a provision in the law that allows this arrangement to occur?

What is total permanent impact? Memorandum says 3,000 acres during construction but less afterwards, and also states 300 permanent interior forest acres. Is 300 acres the sum total of all permanent acreage impact?

There are solar farms larger than 300 acres. Why has the governor not sought similar exactions from solar developers, but singled out natural gas?

When will the next memorandum of understanding come out, and who will be the third party handling the funds?

Thanks a million.
